Welcome to the Lares Risk Academy

At Lares Risk Management International (LRM), our Training and Development services are delivered through the Lares Risk Academy (LRA); a structured, enterprise-level platform designed to strengthen risk management capabilities, security awareness, and operational resilience across organizations.

Built on decades of global experience in security, investigations, crisis management, and risk governance, the Academy translates advanced methodologies into practical, business-ready skills. This is not theoretical training. This is operational capability development for real-world risk environments.

Delivery Formats

Full-Day Immersive Workshops Hands-on, scenario-driven single-day sessions	**1–2 Day Executive Intensives** Deep-dive programs for leadership teams
Quarterly Simulation Programs Ongoing capability building with tabletop exercises	**Annual Resilience Tracks** Structured certification and recertification paths
In-House Corporate Programs Delivered at your premises to your team	**Board-Level Crisis Simulations** Confidential exercises for C-suite and directors

Core Training Programs

All programs are customized by industry, geography, and risk profiles. Each course is delivered by experienced practitioners with real-world backgrounds in investigations, intelligence, and security operations.

01 Corporate Investigation & Interview Techniques

Interview and investigation training for HR, compliance, and security teams

Build structured interview techniques that support internal investigations while maintaining legal and ethical standards.

- Rapport-building and behavioral analysis
- Detecting deception, omission, and distancing language
- Conducting high-risk internal interviews
- Legal and ethical interview frameworks

OUTCOME
More effective investigations with lower legal and compliance risk.

02 Insider Threat Detection Training

Insider risk and behavioral threat detection for organizations

Identify early warning signs of insider threats, including fraud, misconduct, and workplace risk behaviors.

- Fraud indicators and data exfiltration behavior
- Workplace grievance escalation patterns
- Behavioral risk indicators and pathway to violence

OUTCOME
Earlier threat detection and reduced internal risk exposure.

03 Crisis Management & Decision-Making Training

Crisis response and decision-making training for leadership teams

Prepare executives and teams to manage critical incidents through structured simulations and practical frameworks.

- Decision-making under pressure
- Managing uncertainty and incomplete information
- Media handling and reputational risk management

OUTCOME
Stronger crisis leadership and faster, more effective response.

04 Open-Source Intelligence (OSINT) Training

OSINT training for corporate risk, due diligence, and investigations

Learn how to collect and analyze publicly available information to support business decisions and risk management.

- Vendor and third-party due diligence
- Background screening and reputational checks
- Digital footprint analysis and risk mapping

OUTCOME
Better decision-making and reduced third-party risk.

05 Executive Protection & Travel Security Training

Executive protection and travel risk management training

Prepare teams to protect executives and personnel operating in unfamiliar or high-risk environments.

- Situational awareness and route planning
- Low-profile movement techniques
- High-risk travel preparation and planning

OUTCOME
Improved executive safety and reduced travel risk.

06 Fraud Prevention & Integrity Risk Training

Fraud risk management and internal control training

Strengthen internal systems to detect, prevent, and respond to fraud and misconduct.

- Early detection systems and internal red flags
- Financial anomaly awareness
- Governance and compliance frameworks

OUTCOME
Reduced fraud exposure and stronger organizational integrity.

07 Red Teaming & Security Vulnerability Assessments

Red teaming and security vulnerability training for organizations

Apply adversarial thinking to uncover gaps in physical, operational, and internal security systems.

- Identifying physical and operational vulnerabilities
- Challenging internal assumptions and processes
- Stress-testing security systems and protocols

OUTCOME
Improved resilience through proactive risk identification.

08 Workplace Violence Prevention Training

Workplace violence prevention and threat assessment training

Develop structured approaches to identify, assess, and manage behavioral threats in the workplace.

- Behavioral threat assessment and escalation indicators
- HR, Legal, and Security coordination
- Intervention planning and documentation standards

OUTCOME
Reduced workplace risk and stronger prevention capability.

09

Business Continuity & Incident Response Training

Business continuity and incident response training for organizations

Prepare teams to maintain operations and recover quickly from disruptions through realistic scenarios.

- Cyber incidents and ransomware scenarios
- Natural disasters and facility disruptions
- Supply chain interruption and operational shutdowns

OUTCOME

Stronger continuity planning and tested recovery capability.

10

Ethical Leadership & Governance Training

Ethical leadership and governance training for risk management

Understand how leadership behavior and governance structures influence risk exposure and compliance.

- Leadership accountability and decision-making
- Ethical risk awareness and cultural influence
- Governance failures and prevention strategies

OUTCOME

Stronger compliance culture and reduced reputational risk.

11

Operational Technology (OT) Cyber Security Training

OT security and industrial cyber risk training for organizations

Protect critical infrastructure and industrial systems from cyber threats that impact operations, safety, and business continuity.

- Recognizing OT vulnerabilities and threat exposure
- Securing SCADA systems, ICS environments, and connected assets
- Bridging IT and OT security gaps for operational resilience
- Regulatory frameworks: NIS2, IEC 62443, and NIST 800-82

OUTCOME

Stronger protection of critical systems and enhanced regulatory compliance.

ADDITIONAL & SPECIALIST TRAINING AREAS

Beyond the Core Catalog

Complementary programs available on request and as part of customized in-house delivery.

■ Hostile Environment Awareness Training (HEAT)	■ Urban Security & Active Threat Awareness
■ Kidnap & Ransom (K&R) Preparedness	■ Aviation Security Training
■ First Aid & CPR Certification	■ Women's Travel Safety & Security

OUR INSTRUCTORS

Meet the Training Team

Lares Risk Academy programs are delivered exclusively by practitioners: professionals who have operated at the highest levels of government, law enforcement, intelligence, and corporate security.

Every trainer brings direct, real-world experience to the classroom.

John Schachnovsky

DIRECTOR OF TRAINING & RESPONSE

Former FBI Special Agent with 25 years of experience across organized crime, terrorism, cybercrime, and violent crime. Following his federal career, John has advised multinational organizations on security, intelligence, and risk management. He delivers practical, intelligence-led training focused on investigations, crisis response, and operational security.

Robin Verhoek

OT CYBER SECURITY & OPERATIONAL RESILIENCE

Security and technology leader with over 20 years of experience across pharmaceuticals, energy, and water sectors. Specializes in OT cyber security and operational resilience, leading complex programs that strengthen infrastructure protection and business continuity. Brings a structured, execution-focused approach to bridging technical risk with operational outcomes.

Andy Stuart

INTELLIGENCE & POLITICAL RISK

Former British Foreign Office national security specialist with 15 years of experience in counter-terrorism, political risk, and crisis environments. Focuses on operational risk, intelligence analysis, and strategic advisory, with a strong emphasis on critical thinking and adversary mindset. Known for translating complex intelligence into clear, decision-ready insights.

Totti Karpela

THREAT MANAGEMENT & WORKPLACE VIOLENCE PREVENTION

Former Finnish National Police officer with over 20 years of service as a unit supervisor and threat management specialist, and 38 years of total experience in law enforcement, violent crime prevention, and conflict resolution. Former hostage negotiator within the National SWAT team and instructor at the Police University College. Has advised governments and multinational organizations across five continents on threat assessment, workplace violence prevention, and crisis management.

Saurabh Srivastava

CRISIS MANAGEMENT & ENTERPRISE RISK

Army veteran and risk and crisis management specialist with nearly 20 years of experience delivering security and advisory solutions across sectors. Has led over 1,000 consulting engagements, supporting a significant portion of Fortune 500 organizations. Most recently served as Director of Crisis and Security Consulting for a leading global advisory firm. Certified lead auditor for ISO 22301 and 27001. Specializes in crisis management, business continuity, and enterprise risk.

Kathy McConnell

INSIDER THREAT & COUNTERINTELLIGENCE

Former FBI professional and FBI-certified instructor with extensive experience in counterintelligence, insider threat awareness, and human intelligence. Kathy specialized in the recruitment and development of informants and has delivered briefings to private-sector organizations on insider threats, counterintelligence awareness, and security best practices. Her training brings together real-world investigative experience, human behavior, security awareness, and practical leadership development.

Andreas Karki

RISK & CRISIS MANAGEMENT

Andreas brings more than 25 years of global security and risk management experience across 80+ countries. He has worked as a director and advisor to multinational organizations across Europe, the Middle East, Africa, and Asia. His expertise spans physical security, risk and crisis management, and executive protection, with a strong focus on structured governance, operational discipline, and internationally aligned security standards.

CERTIFICATION PATHWAY

Three Levels of Recognition

The Lares Risk Academy certification pathway recognizes progression from foundational awareness to enterprise-wide implementation.

BRONZE

Lares Risk Academy Certification

Entry-level certification confirming foundational risk management and security awareness competencies.

SILVER

Operational Readiness

Intermediate certification for teams demonstrating applied capability across multiple risk disciplines.

GOLD

Enterprise Resilience Program

Advanced certification recognizing enterprise-wide implementation with annual recertification.
